

**TASK 1:** Generate a bar chart or histogram to visually represent the distribution of a categorical or continuous variable, such as the age distribution or gender composition within a population. This graphical representation offers a clear and insightful overview of the data's patterns and trends.

Sr.no	Age Groups(years)	Numbers of Individuals
1	0-15	300
2	16-30	450
3	31-45	250
4	46-60	180
5	61-75	100

Sr.no	Age Group (Years)	Male	Female
1	0-15	170	130
2	16-30	240	210
3	31-45	140	110
4	46-60	100	80
5	61-75	60	40
